

# “Engineer your future: From university to curiosity”

Join the Young Professionals Programme at the EPO  
Young Professionals Programme for STEM students and graduates – online presentation  
by current Young Professionals at the EPO

Free access to join on 22.01. at 12:00 CET

[Register here!](#)

The session is dedicated to all STEM students and graduates from the [Pan-European Seal university members](#).

What is it like to be part of an international organisation? What is exciting about intellectual property? How does the Young Professionals Programme at the EPO help foster professional growth while offering first-hand employment experience? How does the programme help bridge your academic knowledge with your role? In which EPO business area would you fit best?

Come and meet our Young Professionals who work at the European Patent Office. They will walk you through their daily life and present their journeys from university to the Young Professionals Programme at the EPO.

Why this matters for engineering students?

In the upcoming programme edition there will be several opportunities for STEM students in the area of patent examination in various cutting-edge fields: Digital, Electronics & Physics, Health, Infrastructure & Mechanics, Energy, Mobility & Space Technologies, AgriFood, Materials & Production

Join us to enter the inspiring world of intellectual property!

(45 mins + 15 mins for Q&A) | Language: English

European Patent Office located in Munich, The Hague, Berlin, Vienna and Brussels
